Research Units Drawing and Visual Languages, Heritage Conservation and Building within Existing Fabric,  
History of Art, Housing and Design, Spatial Design  
Faculty for Architecture and Planning  
TU Wien, Karlsplatz 13, 1040 Wien

The publication series Space & Gender features contributions that examine the relationship between the construction of space and gender from intersectional, queer, and feminist perspectives. The concept of space is understood not as a closed container but as a complex field produced across places, times, and media.

The series covers, among others, the following focal areas:

- Spatial theory and gender
- Innovative feminist methodologies for investigating spaces
- Feminist practices and working with existing built environments
- Artistic spatial practice with a (queer-)feminist focus
- Historical perspectives on the production of space and queer feminism

Volume 1, edited by

We would like to express our heartfelt thanks to Emily Paefgen, who supported us not only in the realization of this book, but throughout the entire *Stummes Erbe* project with her creativity and organizational talent, greatly enriching our collaboration.

Our sincere thanks also go to our editors, Ruhi Deol and Brigitte Ott, for their precise and meticulous review of the manuscripts, and to Alexandra Möllner for the beautiful design of the book series

We are equally grateful to Barbara Amann-Hechenberger, whose support in handling the administrative and financial processes made the project possible from a bureaucratic perspective. We would like to extend our warmest thanks to her as well.
